

Exit slip

Two players are playing 13 Plus. Player A has a 2 and a 7. Player B has a 2 and a 5.

Player A

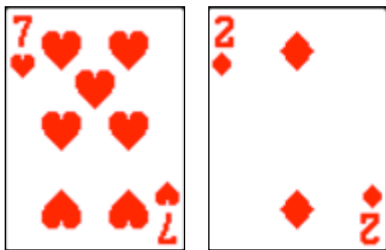

Player B

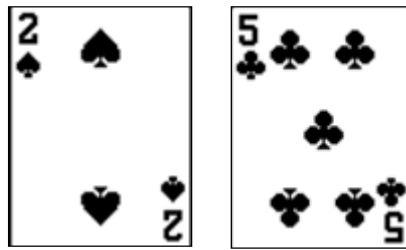

- Who is more likely to win on the next turn? Explain how you know.
- How likely is it that Player A will get *exactly* 13 on the next turn? Explain how you know?
- If you have not already done so, calculate the probability that Player A will get *exactly* 13 on the next turn.
