

Think Cards

You have a coupon for \$1.00 off any one item -
How does that affect your budget?

What is a better deal - the 1/2 gallon of milk or the full gallon?

What if you had \$3.00 more to spend?
What would you do differently?

What items did you pick for dinner?

What do you notice about the cost of the healthier items?

How much is each can of beans?

Can you invite people over?

Do you have enough money to provide for a dinner of 4?

What pizza is a better deal - the House Pizza or the Mystic Pizza?

Hint Cards

What items can you **NOT** afford?

Start with a main dish! Subtract the cost from your original balance.

If something is 10 for \$10.00, you do not need to buy 10 -
How much is 1?

You do not need to buy dessert or drinks!

Do you need to buy a whole pound?

\$ Amounts

You have \$2.00 to spend

You have \$3.00 to spend

You have \$7.00 to spend

You have \$5.00 to spend

You have \$10.00 to spend

You have \$15.00 to spend

You have \$20.00 to spend
